BRESCIA: CITY OF ART AND ENTERTAINMENT

Brescia is a real capital in what working is concerned, which put it at the top of the Italian economic league, with one of the lowest percentage of unemployed people.

Brescia is also much more than this: it's a city of art and entertainment, good food and good wine, touristic city with its lakes and mountains.

Through the streets of the inner city history blends with modernity, culture with entertainment and tradition with new trends; the roman temple and the Santa Giulia museum with it's works of art on one side and Carmine quarter, the centre of the nightlife, on the other.

Brescia offers opportunities to satisfy every kind of requirement, from the theatres, with a huge show schedule, to the many discos, from the multiplex to the many restaurants where you can eat excellent typical dishes with a glass of our wine: Franciacorta.

The two lakes, Iseo and Garda, are reachable in about 40 minutes and they offer the possibility of long walking and relax; in the centre of Iseo Lake there's the biggest lacustrine island in Europe: Monte Isola, where the lovers of walking could reach the Santuario della Madonna della Ceriola, a shrine on the top pf the isle built in 1500.
