Erasmus+
Enriching lives, opening minds.

DESTINATION:TOGETHER

Lightweight, reusable fabric forms a ground path of travelers, connecting lines and shared values, reflecting movement and connection as a walkable map of journeys. After the exhibition, it becomes reusable bags, extending the work into everyday life.

MISTRAL ONLUS - 20 YEARS OF COMMITMENT

"2006 - 2026"

For over 20 years, Mistral Onlus in Brescia has created opportunities for thousands of young people through international mobility, education, cultural initiatives and youth engagement, building strong connections between communities across Europe.

Built on values of inclusion, diversity, sustainability, responsibility, and personal growth, its work becomes meaningful experiences that open minds, build confidence, and create real impact—together.

This anniversary is not just a milestone, but a step forward, continuing a shared journey with trust, purpose, and a clear vision for the future.

" The installation creates a continuous yellow fabric path connecting every visitor, representing both movement and shared thought. Some paths run close while others remain distant, reflecting how individual journeys intersect or diverge over time. As visitors walk, they leave subtle traces that build a collective map of presence and values, shaped through participation. Made from lightweight recycled materials such as nylon and plastic-based textiles, the structure is flexible and temporary. After the exhibition, the fabric is transformed into reusable bags, allowing each piece of the shared path to continue into everyday life as a personal artifact of a collective journey. "
